

2018 Blue Cascades Recovery Exercise

Join the Critical Infrastructure Committee Project

OVERVIEW

The Blue Cascades Recovery Exercise focuses on the recovery of critical infrastructure in the Central Puget Sound by collecting leaders from the public and private sectors and strengthening relationships between the individuals and their organizations. By prioritizing the recovery activities, allocation of resources, and the necessary coordination between governments and private sector channels, the security and resilience of the Puget Sound Region can continue to evolve in order to face the potential challenges of our dynamic location. This exercise will also add to the understanding of interdependencies associated with owning and operating critical government and private sector infrastructure.

DETAILS & REGISTRATION

Date: February, 2018

Location: TBD

Time: 9:00 am - 2:00 pm

Registration Link: <http://conta.cc/2fYowSF>

Check www.regionalresilience.org for an updated agenda

Registration and continental breakfast reception opens at 8:30 am. Event begins at 9:00 a.m. The workshop includes continental breakfast and lunch.

WHO SHOULD ATTEND

- Critical infrastructure owners and operators
- Government at all levels
- Private sector stakeholders
- Community Outreach Leaders
- Finance & Insurance organizations
- Development and Land Use Experts

Region 6 Critical Infrastructure Protection Workgroup

BACKGROUND

The Blue Cascades tabletop exercises are scenario-based discussion events developed by and for key stakeholder organizations that have significant interests in assuring the security and resilience of the Puget Sound Region and the critical infrastructures. The chief goal of these tabletop exercises is to raise awareness of infrastructure interdependencies and associated vulnerabilities, impacts, and preparedness gaps, identifying potential solutions to make needed improvements. Participants in the *Blue Cascades exercises represent all levels of government, utilities, businesses, and other private sector organizations, non-profits, academic and community institutions.*

Over the last 14 years the Center for Regional Disaster Resilience has participated, developed and held regional forums devoted to infrastructure interdependencies. Through the CRDR, Infrastructure owners and operators from all sectors meet and build partnerships to understand interdependencies for a more resilient region. CRDR continues to lead the region in fostering and developing meaningful relationship for identify interdependencies to build resilience.
