

Disruptive Trends in Public Safety Technology Symposium

May 23, 2017

Innovations in technology have the potential to revolutionize how first responders accomplish their mission. Join the Pacific North West Economic Region's Center for Regional Disaster Resilience on May 23 to explore current and emerging technologies used by emergency managers, first responders, and law enforcement. Attendees will develop a common understanding of current technology being used on the ground and near-term developments. The Symposium will lead to better coordination among first responders and improved response.

Topics

- Scenario discussion on technology in use today
- Phone Technology and continuity of 911 centers
- Use of UAV/drones for public safety
- Social media advantages and best practices
- Analytics
- Privacy and policies
- Washington OneNet (dedicated first responder communication system)
- Guided discussion on aspirational technology

Who Should Attend

Participants from:

- Fire
- Law enforcement
- Emergency medical services
- Emergency managers
- Public works
- 911 centers
- Hospitals
- Business continuity professionals

May 23, 2017

Location:

Clover Park Technical College
4500 Steilacoom Blvd SW
Lakewood, WA

Schedule:

8:00 a.m. - 1:30 p.m.

Program includes networking luncheon and breaks to interact with your colleagues.

Registration:

Event is complimentary.

About the CRDR

The Center for Regional Disaster Resilience (CRDR) works to enhance the economic resilience of the region through all-hazards disaster preparedness and resilience. Visit www.regionalresilience.org, email jennifer@pnwer.org, or call (206) 443-7723 for more information.

DISRUPTIVE TRENDS IN PUBLIC SAFETY TECHNOLOGY

May 23rd, 2017 | 8:30 am - 1:30 pm
Clover Park Technical College, Lakewood, WA

8:00am Registration and continental breakfast

8:30am **Welcoming Remarks and Introductions**

- Eric Holdeman, Director, Center for Regional Disaster Resilience

Participants will introduce themselves and organizations to facilitate relationship building.

8:55am **What is disruptive technology?**

Innovations in technology have the potential to revolutionize first responders tools and processes to accomplish their mission.

Table-top discussion among participants on the impact of technology on their workforce. Participants will report out to the group.

9:15am **Washington OneNet**

The First Responder Network Authority (FirstNet) is an independent authority within the National Telecommunications and Information Administration to provide emergency responders with the first nationwide, high-speed, broadband network dedicated to public safety. FirstNet is partnering with AT&T to invest in the communications infrastructure that public safety desperately needs for day-to-day operations, disaster response and recovery, and securing large events.

The high-speed network will be deployed specifically for the millions of public safety users in all 50 states, five U.S. territories and the District of Columbia, including those serving rural communities and tribal lands. The network will modernize first responders' communications and deliver specialized features that are not available to them on wireless networks today.

- Michael M. Marusich, Sr. Program Manager / Deputy SWIC
Office of the State CIO (OCIO)

9:35am **Phone Technology: where it's been and future developments**

- Anthony Martwick, SVP Corporate Strategy, Public Safety, Sonim Technologies, Inc

9:55am

Business Continuity for 911 Centers

As the public becomes more tech dependent, how will that impact 911 operations?

- Pierce Power, 911/EOC Solutions Consultant

10:10am

Networking break and opportunity to visit vendors

10:30am

Social Media: advantages and best practices

The benefits of utilizing social media and challenges to adaptation for the public safety field.

- Eric Holdeman, Director, Center for Regional Disaster Resilience

10:40am

Drones and Broadband Data for the PSAP - The Role of Robotics and Artificial Intelligence

- Barry H. Luke, Deputy Executive Director, National Public Safety Telecommunications Council

11:10am

Analytics: How to use your data

- Ahmed Wani, CEO, One Concern
- Unisys
- Lewis Curtis, Microsoft Services Disaster Response, Worldwide Public Sector Services

11:40am

Networking Break and opportunity to visit vendors

11:50am

Microsoft and Disaster Response

Lewis Curtis, Microsoft Services Disaster Response, Worldwide Public Sector Services

12:20pm

Luncheon Keynote: Privacy Concerns of New Technologies

1:30pm

Adjourn

*Schedule is tentative and subject to change
