

Draft Agenda

5th Idaho Cybersecurity Interdependencies Summit

April 29, 2019

8:30am – Introductions and Summit Agenda Overview

8:45am Welcome - Brad Richy, Director Idaho Office of Emergency Management

8:50am Opening remarks – Governor Brad Little

9:00am Idaho Information Technology Services

2019 Idaho Legislative updates. The best ways to stay updated in the field of cybersecurity.
Jeff Weak, Administrator, Idaho Office of Information Technology Services.

9:30am Ransomware Briefing on specific case studies

Doug Depeppe *JD, LLM*, eosEdge Legal and Board President, Cyber Resilience Institute, Colorado

10:00am Table discussions: Is your business/agency vulnerable?

Give your own examples of response, recovery and mitigation. Share resource information.

10:15am- Cyber Interdependencies: Bottlenecks in cyber traffic, sensitive nodes and how we are planning and protecting infrastructure

Case study for the Northwest. The convergence of physical security and cybersecurity and possible cascading impacts across the region.

Michael Boyle, Strategic Planning Director, Westin Building Exchange.

10:45am Public Infrastructure Security Collaboration and Exchange System (PISCES) –

The PISCES project conducts no-cost security monitoring (netflow, IDS) of down-market local governments. In partnership with regional universities in Washington State, curriculum has been developed around the data collected. University students serve as operational analysts using “live fire” for jurisdictions that operate water purification, waste management, traffic management, and other critical infrastructure. The project intended to provide infrastructure protection, work force development, and research opportunities, and is now in discussions with Boise State University.

Mike Hamilton, The CISO, CI Security.

11:15am National Cyber Exercise and Planning Program – Overview of free resources available to assist your organization in planning and exercises

Ron Watters, Cybersecurity Advisor of Region X, Department of Homeland Security

11:30am-12:00pm Networking Break and Lunch Service

12:00pm Lunch Introduction and Keynote (Department of Homeland Security)

Draft Agenda

1:00-1:50pm Court Case Enactment - The Federal Dam Agency: Contractors and Inside Jobs

Susan Buxton, Idaho Division of Human Resources

MacKenzie Brown, OPTIV

Brad Frazer, Hawley Troxell

Clark Harshbarger, FBI

Lee Holcomb, Holcomb Consulting, Law and Cybersecurity

Claire Rosston, Holland Hart

JR Tietsort, Core Scientific

Paul Wilch, Hawley Troxell

1:50-2:00pm Audience Jury Deliberation Judge Claire Rosston (Holland and Hart)

2:00pm Networking Break

2:15pm ID National Lab

Highlight developing programs and ongoing preparation for cybersecurity specialists. The Aurora Project and its impact on cybersecurity. What does INL do on behalf of Idaho; INL collaborations with Idaho universities, public agencies and private sector.

Wayne Austad, Director of CYBERCORE Integration Center, Idaho National Laboratory

2:45pm Private Sector Panel:

Dean Iacovelli, Cloud Computing Protection, Microsoft

Lindsey Hearst, Print Security Advisor, HP

3:45pm Wrap-Up

Brad Richy, Director Idaho Office of Emergency Management

4:00-5:00pm Networking Social
